Professional Synopsis:

EXECUTIVE PROFILE:

Senior Quality, Engineering & Welding Leader with 25+ years of experience, including 15 years in international operations across the Middle East. Extensive expertise in manufacturing, welding, repair, and remanufacturing of Oil & Gas equipment including valves, wellheads, Christmas trees, BOPs, risers, drilling tools, and pressure equipment for onshore and offshore projects.

Strong command of API QMS, ASME codes, AWS standards, and special processes, with a proven record of process optimization, cost reduction, compliance assurance, and cross-functional leadership.

KEY EXPERTISE

- ❖ Technical & Techno-Commercial Leadership
- ❖ API Q1 QMS & API Monograms (5CT, 6A, 7-1, 16A, 16C & 16AR)
- ❖ Welding Engineering (WPS, PQR, WPQ, Weld Mapping) & Welding process like, all major Automatic GTAW, laser welding, SAW, SMAW, FCAW, Micro Laser welding & Brazing
- ❖ Manufacturing, Repair & Remanufacturing
- ❖ Special Processes: PWHT, Heat Treatment, Laser Cladding, Shot Peening
- ❖ QA/QC, Inspection, Testing & Failure Analysis
- ❖ Vendor Development, Audits & Subcontractor Management
- ❖ Cost Optimization & Productivity Improvement
- ❖ ASME, API, AWS, ASTM, NACE Compliance

PROFESSIONAL EXPERIENCE:

Accurate Edge Group, Dubai

Oct 2023 to present

Technical Manager

- ❖ Lead technical, welding, and quality functions for Oil & Gas repair and manufacturing projects.
- ❖ Drive compliance with API/ASME standards and customer specifications.
- ❖ Responsible for projects in ensuring the execution of technical compliance in line with Project specific approved WPS's & project specific requirements through monitoring and conducting frequent process audits.
- ❖ Technical guidelines to cross functional team within UAE and Overseas Quality and Engineering team on Material, welding, and Quality requirements of code and Project specific engineering requirements.
- ❖ Design, Selection, Development and Qualification of Special Process procedures such as Welding, Brazing, Heat treatment for On-plot Piping & Pipeline.
- ❖ Developing and Qualifying of New Welding Procedures for Fabrication and Field welding of Piping, fittings, Spools, Vessels and Structural steels of Oil & Gas, petroleum, and Refineries projects of On Plot piping, Pipelines, Boilers and Pressure vessels
- ❖ Material selection, Engineering Drawing, Failure Investigation Analysis, Initial product study, Welding & Special Process control. Selection of inspection and method

- ❖ Special Process improvement – Welding, Heat treatment, PWHT, Cold forming operation, & Surface treatment. Product and process implementation, QA/QC implementation QTP/ITP.

NTS Amega Global, Dubai

Jan 2022 – Oct 2023 (2 years)

Welding & Repair Development Manager

Company Profile: NTS Amega Global is a market leader in repair, rental and manufacturing solutions supporting energy markets around the world.

- ❖ Developed and qualified welding repair procedures for critical pressure equipment.
- ❖ Established in-house special processes and improved repair turnaround time.
- ❖ Welding: GTAW, Stub Mfg., Hard facing & PTA Process, improvement, and documentation, PQR approval & Welder Performance Qualification.
- ❖ Preparation and Technical approval of WPS /WQTR and obtaining approval from client specific to project requirement.
- ❖ Coordinating to Fabrication shop, site fab/construction team, Quality department for optimizing all inspection process and monitoring effective utilization of employees and equipment's.

Aswan International Engineering, Dubai

Jul 2020 – Jan 2022 (1.5 year)

QHSE & Welding Manager

Company Profile: Aswan International Engineering was established in 1979. Based in Dubai, the UAE, we provide cutting-edge engineering solutions and professional services for the Oil & Gas, Heavy Industries and Process Industries. We specialise in manufacturing, repair and reconditioning of mechanical parts.

Responsibilities

- ❖ Manage overall Quality Assurance & Quality Control program across the company. Maintain and improve the established quality management system and ensure its compliance to regulatory/statutory standards relating to products/services and **QMS to ISO9001:2015, API Q1API Q1, Product quality standards to API 16A, API 16C, API 6A, API 5CT, 7-1**
- ❖ Prepare, monitor and control department yearly budget and allocate resources within the department to execute assigned tasks effectively.
- ❖ Review and Manage status to current QMS/Product specification standards. Manage the preparation of QMS documents and their issue control.
- ❖ To maintain, develop and continually improve the company's existing integrated management for Health & Safety and Environmental aspects of the business
- ❖ Review the established QMS to suit the changing business trends and organization structure and recommend amendments as appropriate to the management.
- ❖ Plan and organize the internal audit program of the Service Center. Face all external third-party audits and initiate necessary Corrective & Preventive actions.
- ❖ Responsible to review the correctness of Job specific Quality records prior to issuance to clients. Arrange and minute annual QMS & EMS management review meetings
- ❖ Perform quality analytics track the quality KPI for continual improvement
- ❖ Maintain process validation records for Special processes

DServ (Delta Corporation Group of Companies), Qatar

April-2017 to March-2019 (2 years)

Quality & HSE Manager / MR

Company Profile: The Reputed Oilfield service company is in the business of Manufacture, re-manufacture, refurbishment, cost-effective repair overhauling, rental, repair of drilling equipment, exotic alloy welding, hard facing, special testing and parts manufacturing and servicing.

Mainly New Manufacturing of API Products and Services (Aftermarket):

1. **API 6D - Check Valves, Ball Valves, Plug Valves and Gate Valves**
2. **API 6A – Wellhead and X-mas trees, Flanges, Spools etc.,**
3. **API 16C – Choke and Kill manifold**

Responsibilities

- ❖ Manage overall Quality Assurance & Quality Control program across the company. Maintain and improve the established quality management system and ensure its compliance to regulatory/statutory standards relating to products/services and **ISO9001, API Q1 & API Q2**
- ❖ Prepare, monitor and control department yearly budget and allocate resources within the department to execute assigned tasks effectively
- ❖ Authorize to hold/suspend/postpone/stop work, production, deliveries (incoming and outgoing) and interfere in the manufacturing processes in any way he deemed fit and appropriate for the betterment of the company
- ❖ Evaluate and select vendors based on their ability to provide conforming products and services required by the company
- ❖ Liaise with quality management and standards bodies (i.e. API Monogram Program Certifications, Third Party Inspection/Certification Agencies, HSE, etc.)
- ❖ Liaise with customers and suppliers where necessary on issues of quality and quality management system
- ❖ Responsible as a **Management Representative for ISO:9001, API Q1 & API Q2.**
- ❖ Internal audits on Integrated Management System. Vendor audit in-line with API Spec Q1, 9th edition & ISO 9001: 2015.
- ❖ Act as the Lead Auditor for internal audits, prepares and present during management review the internal audit report, monitor action and compliance of the organization to the raised audit report
- ❖ Preparation and Technical approval of WPS /WQTR and obtaining approval from client specific to project requirement.
- ❖ Project: Casing connector – **Qatar Gas & ExxonMobil.**
- ❖ Refinery Plant Project QA/QC: **QAPCO. QP-NGL, QP- Dukhan, QP - Ras Laffan & Qchem**

MTQ Oilfield Service WLL, Bahrain (MTQ Corporation Limited Group of Company)

From Nov-2014 to Mar-2017 (2.5 years)

QA/QC - Assistant Manager & QMR

Company Profile: The MTQ Organization is in the business of Manufacture, repair, refurbishment, rental & servicing of Oilfield Equipment; Fabrication of steel structure Provision of threading services for the Oil & Gas Industry.

Primary Responsibilities

- ❖ Heading QA/QC function: Overall co-ordination with Sales, production and Special project team for the Bahrain operation and Implementation of Quality Systems in the organization.
- ❖ Ensure that the Company's Quality Management System (QMS) is defined, implemented with proper audit and review mechanism to deliver in compliance with customers' quality requirements of Management Representative for QMS (API Q1 9th Edition, ISO 9001:2015) as well as within ISO and API specifications;
- ❖ Internal audits on Integrated Management System. Vendor audit in-line with API Spec Q1, 9th edition & ISO 9001: 2015.
- ❖ Prepared Quality and Operating procedures compliant to API Q1. Prepared Risk Assessments and Work Instructions on Quality and OH&S.
- ❖ Preparation and Technical approval of WPS /WQTR and obtaining approval from client specific to project requirement.
- ❖ Reviewing and approval of Subcontractor WPS's and quality procedures for quality activities and special process (PWHT, Welding, etc).
- ❖ Perform qualification of WPS/PQR/WQR as per ASME section IX, API and NACE, and job specifications and process development in the Weld Procedure Qualification – SAW, GMAW, GTAW, Stub Mfg., Hard facing & PTA Process, improvement, and documentation.

Schoeller Bleckmann Oilfield Equipment ME FZE, Dubai, UAE

From Nov-2007 to Nov-2014 (7 years)

Product/QC - Engineer

Primary Responsibilities

- ❖ Costing work based on customer product requirement & Initial product evaluation.
- ❖ Product design, manufacturing schedules, customers & vendors co-ordination.
- ❖ Welding: GTAW, Stub Mfg., Hard facing & PTA Process, improvement, and documentation, PQR approval & Welder Performance Qualification.
- ❖ Preparation and Technical approval of WPS /WQTR and obtaining approval from client specific to project requirement.
- ❖ Coordinating to Fabrication shop, site fab/construction team, Quality department for optimizing all inspection process and monitoring effective utilization of employees and equipment's.
- ❖ Technical Bid evaluation for procurement of welding consumables, Pipes and Plate materials, and pressure piping components.
- ❖ Responsible for projects in ensuring the execution of technical compliance in line with Project specific approved WPS's & project specific requirements through monitoring and conducting frequent process audits.
- ❖ Responsible for Metallurgical inspection and failure analysis for special process for pipes and its components.
- ❖ Selection of suitable material with respect to piping application and Designing welding process and other special process for field application.
- ❖ Work shop activity – Drawing for machining, Material handling, NDT inspection & Product delivery documentation.
- ❖ Quality management Plans for the organization and identifying record any problems related

to product and quality system and recommend solution to rectify the problems. Sales coordination.

Experience in India

TVS-Brakes India Ltd, Chennai, India

From Oct-2000 to Oct-2007 (7 years) Assistant Manager – Materials, Engg. R& D

LGB-Steel & PRICOL, Coimbatore, India

From Nov-1995 to Oct-2000 (5 years) Engineer – Metallurgy department

Professional Qualification & Credentials

Professional Qualifications:

1. **Degree in Engineering (B.E -Metallurgy):** PSG College of Technology
2. **Master Degree (MBA-Production & Quality):** Annamalai University

Certificate courses:

1. **ISO 9001:2015 Lead Auditor (QMS) – IRCA Certificate No.: 1016342**
2. **ISO 14001:2015 Lead Auditor - IRCA Certificate No.: BTE/C1171/01**
3. **API Spec Q1 – Lead Auditor - API – U Training – Certificate No:2020-165-06.20**
4. **API Spec Q2 – Practitioner Certificate from API U Learning – Certificate No:2016-03772**
5. **AWS–Certified Welding Inspector: Certificate No.:12021301(Exp.Date:1.2.2027)**
6. **NDE–Level-II (RT, UT, PT&MPT) Certified course–SNT-TC-1A of ASNT**
7. **IMS/ISO-Internal Auditor: Certificate course of Qualified IMS-ISO 9001:2015, ISO 14001:2015, ISO 45001:2018**
8. **ASME BPV Code 2023– Updates & Key changes training**
